

Coming November 5th

WTSB has been working on upgrades to our notifications product. Our new **SecureAlerts** product will be introduced on November 5th.

SecureAlerts allows you to monitor real time activities in your accounts. You can choose from dozens of account activity alerts and delivery methods such as:

A purchase using your debit card was just processed.

You instantly know.

An ATM withdrawal is made.

You instantly know.

A check clears that exceeds the amount you set.

You instantly know.

Text Messages

One of the easiest ways to receive SecureAlerts is through text messages on your smartphone*, or wearable devices.

Email

Receive email messages about your account activity.

Online Banking Message Center

You'll see your SecureAlerts every time you log on to Online Banking.

You can even set times to receive your alerts

****Please Note****

Any current account alerts or notifications will discontinue on November 5th. Beginning November 5th, you will need to set-up new alerts within the new SecureAlerts program
